Skills

Profile

An enthusiastic and dedicated MERN Stack Developer with 2 years of experience in developing and maintaining full-stack web applications. Proficient in MongoDB, Express.js, React, and Node.js, with a solid understanding of JavaScript and modern web development practices. Committed to continuous learning and improvement to build efficient and user-friendly applications.

Employment History

Jr. MERN Dev, Esferasoft solutions, Mohali

JUNE 2023 – PRESENT

During my 1-year tenure as a MERN Developer at a service-based company, I worked on a diverse range of web development projects, focusing on delivering high-quality, full-stack applications. I successfully contributed to more than 10 projects, with two of them being delivered to clients. This experience allowed me to refine my skills in the MERN stack and collaborate closely with different teams to meet client requirements and project deadlines.

Education

10th, S.K.S. Academy(CBSE), Ropar

MARCH 2015 – MARCH 2018

12th, S.K.S. Academy(CBSE), Ropar

MARCH 2017 – MAY 2018

B.Tech, Rayat Bahara (PTU), Ropar

JULY 2018 – JULY 2022

Projects

Empowercoin

Blockchain-powered platform aimed at empowering communities while offering financial services and wealth-building opportunities. Think DeFi meets micro-finance.

Retailer Pos

A free Shopify app designed to streamline **product consignment** from brands to retailers. Automates stock sending, order management, retailer acceptance/rejection, and real-time sales tracking within your Shopify dashboard.

AbyssGate

This site is a darkly captivating **personal or portfolio-style web project** built by me, serving as a showcase of my creative and technical prowess. It's my personal project nothing extraordinary.

Blackpatch

Black Patch is a mobile (iOS) and macOS app that connects Apple device owners—like iPhones, iPads, and MacBooks—with on-demand repair, maintenance, and diagnostic services, all arranged through the app in just a few taps.
